

# **Relationship Policy**

## **Our Lady and St. Anne's Primary, Hamilton**

This policy has been created in line with South Lanarkshire Council's PPRUDB Guidelines, Treat Me Well Anti Bullying Guidance, Nurturing Principles and Pivotal Education approaches.

Staff, pupils and parents were consulted and their views taken into consideration. We work together to instil our values of

**Faith, Inclusion, Hard Work, Respect and Fairness.**

We strive to ensure that these values underpin all relationships, actions and behaviours within the school community.

We fully believe that all behaviour is communication and respond accordingly.

Consistent approaches and relentless routines from all staff is paramount.

We appreciate that a number of our children may have additional support needs and require further supports in relationships and behaviour. This policy does not detract from the additional support which some children with particular needs may require e.g. visuals, social stories, emotional literacy support etc.

In particular cases, individual targets, Additional Support Plans, Behaviour Additional Support Plans etc. will also be used as required, in line with SLC Promoting Positive Relationships and Understanding Distressed Behaviour Policy.

It is, however, expected that the vast majority of children will respond and benefit from the support and structures of the Relationship Policy which operates within Our Lady and St. Anne's Primary School.
