

## Readiness to Learn

Please see the information below for help as to what to expect if your child is required to self-isolate or shield.

### Weekly Homework

All classes will post weekly homework on their Google Classroom.

Pupils can access this by logging into Glow.

Homework may be online learning, for example a task on Reading Eggs / Big Maths / Epic or pupils may be asked to upload a photograph or document of a completed task.

The class teacher should not routinely be contacted by parents through this channel.

### Self-Isolation - Individual Child

If your child is self-isolating and able to complete work, we want to support them as much as we can.

We are unable to replicate the teaching in the class, however they should continue to access the Weekly Homework on Google Classroom and in addition their teacher will upload individual work for them to complete.

They are also able to continue with online learning such as Reading Eggs and Big Maths and complete Self-isolation Activity Grids.

If appropriate / desired, support calls from school can also take place.

### Self-Isolation - Whole Class

The class teacher, or another member of staff, will increase the volume of work being posted on Google Classroom for pupils to complete.

Class teachers will be available on Google Classroom each weekday during the whole class isolation, however there is not an expectation that pupils will be on Google Classroom from 9am - 3pm all day.

The work uploaded for pupils is not optional to complete, however, pupils can be on for the length of time it takes for them to complete the task.

We are aware that families may have more than one child who need to use the same device to access online learning. We are also aware that for some children and working parents, it can be very difficult juggling their own work and school work.

### School Closure

In the event of a whole school closure, the additional remote learning document gives further information as to what to expect.
